WORK EXPERIENCE

Architect

EDG

📅 2016 - current

📍 San Francisco, CA

- Designed 173 blueprints for corporate clients
- Supervised and directed a team of 23 architects to create in-depth specification documents
- Evaluated costs for 45+ projects, creating reports on conceptual estimates of construction cost
- Inspected 56 construction sites to analyze the environmental impact, construction suitability, and compliance with state and federal laws
- Negotiated contracts with 243 clients, increasing the company's profits by 29%

Architect

Verderame Cale Architecture

📅 2011 - 2016

📍 San Francisco, CA

- Retained 100% of clients, contributing to the company's meteoric growth through the economic downturn
- Spearheaded design and construction of the 300-room Western Sands Hotel in the Bay Area
- Developed design concepts and construction documents for a proposed 200,000 sq ft mall in San Francisco in an effort to boost the local economy by 21%
- Received 34 client recommendations for excellent design, increasing the company's ratings from 4.2 stars to 4.9 on Better Business Bureau
- Attended 12 architecture training programs, increasing design efficiency by 36% and increasing client satisfaction with the firm by 42%

Junior Architect

Studio 38 Designs, Inc.

📅 2009 - 2011

📍 San Francisco, CA

- Partnered with the operations manager on 20+ projects to increase knowledge and hone design skills, increasing overall efficiency by 31%
- Utilized AutoCAD and BIM models to assist with the development of 47 client designs, reducing the time spent per project by 29%
- Visited construction sites and wrote reports for senior architects and the project manager 4 times a week
- Researched and wrote reports on problems with Cook's Bridge and proposed solutions, resulting in 96% of City Council board members petitioning for a bridge remodel and increasing the firm's revenue in 2010 by 19%
- Contributed to an eco-friendly high-rise concept for San Francisco to decrease carbon emissions by 50% in 2050
