PROJECTS

Community Health

Volunteer

📅 March 2022 - June 2022

- Increased individuals seeking proactive interventions at the health department by **71% through a weekly outreach program**
- Distributed Adobe ExPress STI transmission visual content to 500+ community members
- Supported 50+ elderly individuals with ADLs
- Gathered through EHR 300+ community members' records and linked them to local facilities

Clinical Simulation

Participant

📅 January 2021

- Received a 99% assessment score for improved situational analysis and critical thinking
- Used team collaboration and effective communication to improve performance speed by 77%
- **Registered a post-simulation confidence improvement by 82%**, increasing skill-based competency quotient
- Saved 33% of the simulation time through the use of NTMS

Research Project

Insurance Cover Gap among Low-income Women

📅 May 2020 - July 2020

- Analyzed data on Stata for precise findings and actionable recommendations
- Boosted productive health insurance awareness among 250+ low-income women through a group-focus survey
- Implemented automatic reminders for 500+ participants, **ensuring 94% successful participation**
- Improved research efficiency by 63% through SPSS to manage data and streamline analysis

CAREER OBJECTIVE

Nursing student with impeccable data analysis and interpersonal skills looking to add on real-life clinical experience in a community-eccentric health champion like ChristianaCare. Terrific timekeeper, team player, and critical thinker passionate about bridging the health services access gap among vulnerable and marginalized populations.
