Skillful Construction Manager with 14+ years of experience in construction. I've generated \$5M+ per year for companies, streamlined communication systems, and established equipment relationships to save an average of \$20K per month on projects. Seeking opportunity with DSG Construction to enable large-scale projects through the use of efficient management strategies.

## Work Experience

### AECOM - Construction Manager

2012 - current

Seattle, WA

- Utilized most effective strategies to ensure 100% of projects were complete before deadlines, while adhering to stringent budgets.
- Reduced equipment rental costs by 20% by establishing and maintaining strong relationships and re-hire agreements with local vendors, resulting in discounted fees and reduced transportation costs.
- Managed teams of 20+ tradesworkers, laborers and general construction workers on-site.
- Spearheaded establishment of a communication system for staff and equipment suppliers, simplifying coordination and reducing 20% of downtime on-site.
- Supervised 30+ construction builds from residential to industrial scale.

### HDR - Construction Manager

2008 - 2012

Seattle, WA

- Generated simplified budgeting system, reducing work time for planning and budgeting potential projects by 35%.
- Monitored build progress, safety, and quality on-site, making decisions during the build process to avoid missing deadlines, contributing to a 99% on-time project completion.
- Managed projects grossing \$5 million per year.
- Reviewed and analyzed project proposals and blueprints, hiring subcontractors as necessary to meet budget and deadline needs of clients.
- Maintained up-to-date knowledge of compliance codes and regulations for all proposed and active sites, ensuring legality and avoiding 100% of potential infraction penalties.

### Prestige Plumbing & Heating - Construction Worker

2006 - 2008

Seattle, WA

- Utilized 10+ types of tools and related equipment necessary to fit piping lines and fixture installation.
- Responsible for unloading deliveries, and lifting/carrying 50+ pounds of equipment on-site.
- Assisted plumbers by testing water piping and system sanitation, resulting in 0 customer complaints.
- Collaborated with tradespeople and 15+ other construction professionals on-site.

## Education

### Ballard High School - High school diploma

2002 - 2006

Seattle, WA
