CAREER OBJECTIVE

Dental Hygienist specialized in delivering optimal patient care with 11 years of dental experience. Leveraging high proficiency of modern dental practice (digital radiography, soft tissue management) with strong interpersonal and communication skills, building rapport with diverse populations, to improve the patient experience and expand clinic growth.

WORK EXPERIENCE

Dental Hygienist

Jai Shin DDS

📅 2016 - current 📍 Seattle, WA

- Provide dental care services to 12 patients daily, ensuring that the clinic's high standards of patient satisfaction and safety are always fully met.
- Identify any oral health issues, advise patients on dental hygiene, and assist in dental periodontal and pathology assessments including fluoride treatments and whitening services.
- Prepare local anesthesia and assist in oral surgery and extraction.
- Awarded Employee of the Year for increasing patient satisfaction from 86% to 94% in 2018.

Dental Hygienist

Metropolitan Dental

📅 2012 - 2016 📍 Seattle, WA

- Treated 11 patients daily including examination, teeth cleanings (polished, flossed, and brushed teeth), and scheduling follow-up appointments; always providing friendly customer service and following patient safety protocols.
- Maintained and sterilized dental equipment; mixed amalgams, cements, silicates, and other materials.
- Cleaned calcareous deposits, accretions, and stains from teeth and beneath gum margins with dental instruments.
- Competent in whitening procedures and instructions for maximizing results with minimal sensitivity.

Dental Hygienist

Bensonhurst Dental

📅 2010 - 2012 📍 Seattle, WA

- Treated 8 patients daily including patient assessment, treatment planning and explanation, executing dental hygiene/periodontal treatment, and scheduling follow-up appointments.
- Evaluated clinical findings, medical history, and previous dental records in order to integrate the information into a plan for excellent dental hygiene.
- Used electronic health recording system for clinical activities and recording oral conditions on dental and periodontal charts.
