## WORK EXPERIENCE

---

### Harborview Medical Center - ICU Nurse

2019 - current

Seattle, WA

- Established therapeutic relationships and created care plans with more than 2k patients and families
- Evaluated treatment responses, revising plans as needed and discharging 82% of patients on time
- Established process improvements to increase continuity in the nurse-to-patient relationship, which helped reduce administrative work by 11%
- Monitored patient progress and prepared patients for discharge, using established clinical pathways
- Assisted patients with insurance and legal questions regarding rights with 100% HIPPA compliance

### UW Medical Center - ICU Nurse

2015 - 2019

Seattle, WA

- Administered prescribed medication, changed dressings, cleaned wounds, and monitored vital signs
- Ensured proper placement and functioning of catheters, leads, and tubing
- Assessed plans and evaluated patient care needs while carrying out physician orders
- Acted as a patient advocate by focusing on providing age and culturally appropriate care to 5k+ teenagers and pre-adolescents
- Provided direct care to patients in life-threatening situations, and updated documentation and patient intake forms to reduce intake times by 20 minutes
