## Long Term Care Pharmacy Technician

Expert Certified Pharmacy Technician specializing in Long Term Care and Senior Communities. Bringing 13 years of dedicated patient support, customer service excellence, and pharmacology knowledge to provide highly efficient processes and inventory management while never compromising patient safety.

### Work Experience

#### Denver North Care Center - Long Term Care Pharmacy Technician

2017 - current

Denver, CO

- Triage, interpret, and accurately input orders into computerized medication order system while meeting (and often exceeding) productivity standards of the pharmacy unit. Audits input versus documentation and makes corrections as needed before fulfillment to ensure patient safety.
- Fulfills all medication orders (existing and new) with patient safety as priority one. Delivers medications to the units' nursing staff.
- Thorough inventory management including receiving and processing wholesaler medication orders through verification of medication stock and maintaining accurate inventory records.
- Maintain the Cubex machines on each floor including restock medication and supplies to ensure inventory availability and ease of use for the units' nursing staff.

#### Montage Hills Senior Living - Long Term Care Pharmacy Technician

2012 - 2017

Denver, CO

- Accurately prepared and administered medication to all assigned floors of the long-term care facility by following the precise directions from the physician orders.
- Maintained the medication room and medication inventory for the facility to ensure proper inventory rotation, appropriate ordering, and low overhead.
- Maintained and audited medication administration records by following medication policies to ensure highest patient safety and quality care.
- Assisted the Care Team with resident care by understanding patient service plans and assisting with daily activities for a comprehensive high-quality patient experience.

#### Locam Valley Retirement Center - Pharmacy Technician

2008 - 2012

Denver, CO

- Accurately processed incoming medication orders within the senior community.
- Assisted patients in minimizing medical expenses by recommending generic alternatives.
- Monitored ordering of medication stock to maintain streamlined inventory and low overhead.
- Processed and prepared billing for the patient's insurance company.
- Excellent customer service to ensure a friendly and helpful experience.
