### WORK EXPERIENCE

#### Mobile Phlebotomist

ICL HealthCare Choices

2018 - current / Austin, TX

- Worked collaboratively with patients, and support services to provide efficient care, saving patients an average of 10 minutes per visit
- Patiently explained collection processes and demonstrated genuine compassion for patients, resulting in 20% reduction in patient anxiety levels according to post-visit surveys
- Effectively utilized tourniquet to increase single-stick success and a draw rate of 15 patients/hour, reducing patient wait time and staff stress
- Performed successful handling and storage, resulting in 99% proper labeling and sample viability rate

#### Mobile Phlebotomist

Biodiagnostics Lab

2016 - 2018 / San Fransico, CA

- Minimized patient discomfort by accurately utilizing straight and butterfly needle techniques, resulting in 60% reduced episodes of fainting and 0 incidence of hematoma
- Awarded American Society for Clinical Laboratory Science Award for mentorship of future phlebotomy professionals
- Adhered to OSHA bloodborne pathogen safety regulations and attended all department training events

#### Nanny

Household Staffing

2013 - 2016 / Washington, DC

- Implemented Montessori techniques of self-directed learning, childhood empowerment, and non-competitive development
- Arranged a weekly community meetup of nannies and children to provide socialization opportunities
- Maintained an uncontaminated home for a young child with a peanut allergy, and obtained training on EpiPen use
- Performed routine household chores such as cooking, vacuuming, laundry, etc.
