Nursing
Johns Hopkins University
2019 - 2023
Baltimore, MD

SKILLS

Meditech
Athenahealth
Doxy.me
UpToDate
Omniceil
DebMed GMS

CAREER OBJECTIVE

Driven graduate nurse with a solid foundation in nursing principles looking to start a fulfilling career at LifeBridge Health. Committed to delivering individualized patient care, I aspire to contribute to LifeBridge Health's mission of providing exceptional healthcare services and promoting overall wellbeing.

WORK EXPERIENCE

Gasoline Attendant

Royal Farms

2022 - 2023 / Baltimore, MD

- Introduced a shift scheduling system using Deputy, **reducing weekly overtime expenses by 8 hours and optimizing staffing levels**
- Analyzed fuel pricing trends with GasBuddy, resulting in a strategic price adjustment that led to an extra 36 gallons sold
- Executed safety protocols with SiteDocs, cutting safety incidents by 52%
- Conducted routine equipment calibration with Fluke Calibration software, ensuring accurate fuel dispensing and preventing potential revenue loss

PROJECTS

Beyond the Bedside

Volunteer

2021

- Used Athenahealth to identify trends that informed targeted community health education campaigns and resulted in 97 additional participants
- **Reduced medication errors by six per month** and enhanced patient safety by leveraging Omnicell for medication management
- Expanded community outreach to serve an additional 38 patients per month by implementing Doxy.me for virtual consultations
- Established a centralized communication hub with Meditech, reducing response times by 24% and enhancing collaboration among volunteers

Healthy Habits, Healthy Lives

Volunteer Assistant

2020

- Introduced UpToDate subscriptions for nursing staff, **enhancing education delivery of community programs that reached 126 more members**
- Automated health record management with Meditech, allowing nurses to spend an additional 14 hours engaging with community members
- Utilized DebMed GMS to enhance hand hygiene protocols, reducing preventable infections by 16%
- Conducted 21 virtual health consultations weekly through Doxy.me, making health resources accessible to an additional 44 individuals
