WORK EXPERIENCES

Registered Nurse (RN)

Sinai Hospital

📅 2018 - current 📍 Baltimore, MD

- Worked as an emergency room nurse 6 days per week in the Level 1 trauma center
- Communicated and collaborated with 8 medical hospital specialists to ensure top of the line care for patients
- Triageed 100% of patients as they entered the ER and expedited treatment that required immediate care
- Implemented a culture of thorough, detailed, and organized documentation to improve efficiency for healthcare providers while interacting with new patients
- Administered medications, injections, and IV treatments as needed to 370+ monthly patients
- Cultivated an empathetic approach to patient care and answered patient questions regarding their illnesses

Registered Nurse (RN)

Austin State Hospital

📅 2014 - 2018 📍 Austin, TX

- Collaborated with 6 doctors and 26 staff members to communicate care plans with patients and their families
- Managed a team of 3 registered nurses and 2 nursing aides
- Worked to instill a culture of open communication with vulnerable patient populations to ensure positive patient-care outcomes
- Led 2 community outreach programs, reducing the rate of drug overdoses by 63% in 2017 and 2018
- Provided education on early warning signs of overdoses 3 times per month
- Trained 8 new nurses in the ER on best practices for patient documentation
- Provided a full range of care from wound treatment to broken bone immobilization
- Administered medication for over 23 patients per shift in the emergency room

Nurse Intern

Leander ISD

📅 January 2014 - May 2014

- Assisted 3 primary coordinators with patient care and scheduling
- Implemented patient care 3 days per week based on physician's assessments
- Corroborated patient discharge planning with their families and 6 members of the healthcare team
