Work Experience

Pacific Dental Services - Pediatric Dental Assistant

2019 - current

West Jordan, UT

- Sterilized and disinfected instruments and equipment; cleaned each operatory in accordance with the state applicable infection control guidelines.
- Welcomed and comforted both patients and their guardians, focusing on ensuring their understanding of their care and ease of mind.
- Complete radiographs and intra-oral pictures of patients in an efficient and timely manner.
- Recorded patient charting and all of the dentist's notes in the digital patient chart as directed by the dentist.
- Measured and understood basic pediatric vital signs such as body blood pressure and pulse.
- Instructed patients on postoperative and general oral health care as directed by the dentist in a fun and engaging way.

Warm Family Dentistry - Dental Assistant

2017 - 2019

Lehi, UT

- Prepared patients for treatments or checkups ensuring their comfort.
- Sterilized, selected and set up instruments, equipment and necessary materials before treatment according to office and state regulations.
- Followed up on medical requests to and from other providers making sure the requested information has been received prior to patients' appointment.
- Provided diagnostic information by exposing and preparing radiographic studies, pouring, trimming, and polishing study cast.
- Kept maintenance log of all dental equipment to ensure operation per manufactures' instructions.
- Maintained dental supplies inventory by checking stock daily to anticipate needed supplies; verified orders and receipts of supplies.
