WORK EXPERIENCE

Adventist HealthCare - Pediatric Nurse

February 2019 - current

Rockville, MD

- Reduced patient readmission rates by educating parents on follow-up care using Emmi Solutions
- **Administered medication and treatment to 25+ children each day** with NextGen EMR
- Assessed and diagnosed patients in the emergency department, triaging 30+ patients per day
- Issued accurate and timely IV medication and phlebotomy procedures to 10+ pediatric patients daily
- Developed and implemented pediatric pain management plans based on individual requirements

Kaiser Permanente - Medical Assistant

May 2014 - January 2019

Silver Spring, MD

- Conducted comprehensive patient intake assessments, gathering patient history and vitals for 700+ cases
- Educated patients on chronic disease management and increased compliance with treatment plans
- Maintained inventory of medical supplies and equipment, ensuring adequate stock levels and reducing emergency orders by 73%
- Performed EKGs, X-rays, MRI, and CT scans and **accurately identified 97% of abnormalities**

Johns Hopkins Medicine - Nurse Aide

August 2010 - April 2014

Baltimore, MD

- Helped with laboratory and diagnostic testing procedures, guaranteeing accurate sample collection and on-time processing
- Boosted patient satisfaction ratings by 47% by helping with daily living activities, including bathing, grooming, and dressing, for 12 patients every day
- Enabled early intervention and improved patient outcomes by checking vitals, identifying abnormal readings, and reporting to the nursing staff
- **Reduced hospital-acquired infections by 28%** by maintaining cleanliness and hygiene of patient rooms
